On behalf of MFSRC, welcome to the 44th annual Minnesota Family Support and Recovery Council Conference! We are excited to offer another conference that incorporates skills, training, and hopefully a little fun for everyone.

This year’s theme is: Waves of Change, Oceans of Opportunity. As public service employees, we strive to provide the best quality service to the citizens of Minnesota. As you all know too well, we encounter change quite often. Whether it is a change of technology, change in co-workers, change in job titles, change in case-loads, or change in the legal process, we continue to endure, learn, and function, while understanding the implications of new information, for both current and future problem-solving and decision making. I encourage you to remember the value of what you do and how important your work is to the children of this state.

Our conference begins Sunday night with Jody Janati presenting on “Healthy Talk = Healthy You”, sharing what to say and do when dealing with difficult interactions. Tom Cody is our keynote speaker on Monday. His topic is “Live Above the Line: How Our Thinking Governs Our Experience”. Tuesday morning’s keynote speaker will be Michelle Nelson who will share “Growing Gen Y”.

Don’t forget to have fun and mingle with your colleagues while you are here! On Monday night enjoy a beach party theme with DJ Chopper. Feel free to dress for the part in your best beach party attire. I expect that this will go “swimmingly well”. Tuesday night enjoy wine tasting while networking.

Elections are very important for MFSRC as it infuses new people and ideas into our board. We encourage you to get involved by running for a position. If you are uncomfortable with that, we appreciate your vote when it comes to electing new people for the board. Make sure to write your county on your ballot and only vote for the representative in your district. Do not vote for people in other districts. Your ballot will be invalid if these two steps aren’t followed.

Again, enjoy yourself, learn from the sessions and networking, and let us know how we are doing by completing and returning evaluations.

In closing, I want to thank all of you for your support. For those who contributed to the conference: Thank you for your excellent work! Your hard work does not go unnoticed and you should be commended. It has been an honor serving MFSRC as the President this year. Without your dedication, this conference would not be a success.

Sincerely,

René Grisham
MFSRC President

2:45–4:15  BREAKOUT SESSIONS:

1. **WORK FROM YOUR TRUE PURPOSE**  
   Tom Cody  
   
   Effective leaders know the outcomes they want to achieve. They are aware of their mission, purpose and the values they bring to their work. However, conditions that occur throughout the year can diminish their clear sense of purpose and value. This session will explore (1) what their individual mission, purpose or values are, (2) those conditions that detract from our mission, (3) how we can be aware when we are getting off purpose, and (4) how we can regain focus on what is truly important.  

   Intended Audience: Supervisors  

2. **WAAAAAY BETTER SUCCESSION PLANNING**  
   Dr. Bruce Miles—Ed.D. and Big River Group, LLC  
   
   Most businesses and business owners, pay little, if any, attention to succession planning. Current reasons (or excuses) include:  
   
   • “We are just too busy”  
   • Any economic or sector downturn causes anxiety  
   • “We are not sure how to do it”  
   • “We have never done it before”  

   Participants in this session will be guided through a quick and consistent set of steps that reduce time needed, allows for more reliable diagnosis of current employees’ skills and possible future, allow for more accurate selection of succession candidates, and promote a better environment that will cause future leaders to become engaged in the process. Session participants will receive information about, and be led through exercises to:  
   
   1) Identify necessary preparation for the process:  
      A) Evaluation and ranking of current employees  
      B) Using a “Business Roadmap” to guide the process  
   2) Develop effective succession plans for selected employees  
   3) Developing and implementing the process with selected employees  
   4) Consider how to assemble like-minded employees into a cohort model  
   5) Evaluate progress of employees, as well as the succession program.  

   Intended Audience: General Audience  

3. **THE EXCITING WORLD OF JUDGMENTS:**  
   WHAT YOU NEED TO KNOW  
   
   Jennifer Stanfield—Assistant County Attorney, Carver County  
   Susan Hanstad—Assistant County Attorney, Hennepin County  
   Julie Thompson—Child Support Officer, Chisago County  

   Have you ever avoided looking at the DHS judgment manual because the area of judgments is so confusing? Well that time is over as the Comprehensive Legal Vision Enforcement Group, for the past two years, has been working hard to make this manual an easy to use document that is a one stop shop for both attorneys and child support professionals. This presentation will initially discuss why this group was formed and issues encountered when working on the manual. The presenters will then give an overview of what you will find in the manual, go over any new forms created and any major changes that the attendees need to be aware of. Time for questions will be given at the end of the session.  

   Intended Audience: General Audience
4. WELFARE FRAUD 101  
University A
Preston Cowing—Welfare Fraud Investigator, Collections Officer, and Child Support Process Server, Brown, and Sibley Counties
Jim Backlund—Welfare Fraud Investigator, Clay County

Public assistance and its requirements have changed greatly since Welfare Reform in the mid 1990s. AFDC cash entitlement has been replaced by MFIP, DWP, Housing Grants and work requirements to receive cash assistance. Child Care Assistance Programs have expanded its role in welfare to work. After a decade of public assistance roles decreasing, the numbers have increased since the start of the great recession in 2008. Eligibility requirements have been loosened up or eliminated completely over the last several years in the Supplemental Nutrition Assistance Program (SNAP) and Medical Assistance (MA). What have all these changes meant to Welfare Fraud? How are these programs being affected by the 2016 elections? This presentation is a basic overview of welfare fraud from the perspective of investigators from two small/mid-sized counties. This is meant to be an interactive presentation with audience participation leading the presenter to specific areas of interest. Case studies if time allows.

Intended Audience: Collection Officers

Veronica Cary—BlueZone Scripts Statewide Coordinator, DHS/CSD
Rebecca Radcliffe—Division Operations Manager, DHS/CSD

BlueZone Scripts are a simple extension of the BlueZone software that is used to connect to PRISM and other mainframe systems including MAXIS. These scripts automate repetitive, simple tasks such as adding and updating PRISM screens, CAAD notes, and cleaning up worklists so that workers can manage their caseload more efficiently.

This session will provide an overview of the first year accomplishments of the PRISM BlueZone Scripts Project between Minnesota counties and the State including: the technological infrastructure to develop, test, and release scripts for county use; "hackathon" coding sessions for scriptwriters to work collaboratively; verification and compliance processes for scripts in use and development; onboarding of counties as User Agencies; and a demonstration of scripts in action by county child support scriptwriters and users. Come ask questions, learn how your county can participate, and hear plans for the future.

MARK RIOS (Wednesday: Returning Veterans, Addictions due to Physical and Mental Health Issues and the Impact on Child Support) grew up and graduated from high school in Plainview, Texas, where his parents worked as migrant farm workers in the mid 1980s. Mark enjoyed playing football and track all of his life until he graduated in 1992. He then enrolled in college for one year before enlisting in the United States Marines where he served from 1994 to 1998. His primary job was Amphibious Assault Amtracker and he was stationed at Camp Lejeune, NC. He was deployed to Desert Storm in 1995 as a support unit for the Marines coming home, then was sent to Norway for another six months of deployment, training with NATO Operations.

After honorably completing his active duty years in the marines, Mark came to Minnesota and completed his four-year degree in Chemical Health Counseling. He began to work as a Rule 25 Assessor and Prevention Specialist with a non-profit agency in Ramsey, Hennepin, and Dakota counties, performing assessments for clients and veterans in detox, jails, hospitals, and community settings to provide assistance for those in need of treatment and recovery.

In 2007 Mark was recruited to work for Dakota County as a Chemical Health Social Worker and embraced a caseload of clients who needed full assistance and guidance into their recovery efforts. He was cross-trained to manage chemical health, mental health, and vulnerable adult cases on his caseload. Five years later, Dakota County again recruited him to be a CVSO (County Veteran Service Officer). He remained in this position for more than three years, helping veterans file their state and federal claim to the VA for disabilities and other related benefits. He took many questions regarding child support in this role. He also assisted the veteran’s dependents and provided presentations to local VFW, American Legion, and related veteran events to make them aware of the VA benefits available to veterans.

Mark has now joined Minnesota Adult & Teen Challenge in the effort to bring resources and hope to those fellow veterans and their loved ones for the state of Minnesota. He is well aware of the need of resources and support that the veteran community needs in order to access treatment and reach sobriety from within their communities.
